

Pledge to Protect Social Security & Medicare

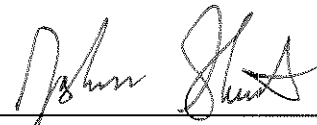

I, Kristi Noem, pledge to protect Social Security for those in retirement and those nearing retirement. They have worked hard and we must keep our commitment to them.

Additionally, I pledge to oppose any efforts to privatize Social Security, while working on a bipartisan solution to keep the program solvent for younger workers.

Finally, I pledge to support efforts to repeal the Health Care Bill passed earlier this year including the approximately \$500 billion in cuts to Medicare included within the legislation.
